

Multiflex SL: Flexible, simple & quick installation.

The SL is made of galvanised steel and is being applied when mechanical protection is needed, but water-tightness is not required. The application fields are steel and aluminium foundry industry, machine- and apparatus-building and the security industry. The SL is excellent to protect cables against metal particles and against rodents.

Material & Construction:

Construction: Galvanised steel core, square-locked.

Temperature: -55 °C to +300 °C. **Colour:** Metal coloured.

Classification according NEN-EN-IEC 61386:

Compression resistance: Class 4, Heavy (1250 N).

Impact resistance: Class 4, Heavy (6 J).
Tensile strength: Class 4, Heavy (1000 N).

Protection class: IP 40.
